# Wolverhampton Open Space Strategy and Action Plan

## Online Survey

### Introductory text

#### What do we mean by open space?

Open space includes all outdoor public space that can be used by the public. This includes parks, recreation grounds, play areas, sports pitches, nature reserves, churchyards and other green spaces as well as pedestrianised areas.

Wolverhampton City Council has commissioned LUC to prepare an Open Space Strategy and Action Plan for all of these open spaces which are managed by the Council. This strategy will provide a long-term Vision and action plan which will help to ensure is open space network meets the needs of residents and local wildlife.

We are asking people to complete a short online survey which will help us to understand more about how you use open space and play space near your home or place of work, how satisfied you are with the quality of open space, and what additional types of open space and play space may be needed in the future.

The results of this survey will help us develop a long-term strategy for Wolverhampton's open spaces and will form a public document to inform open space management in the future.

In particular, we will ask questions about the following types of open spaces:

- Formal parks and recreation grounds: Open space dedicated to recreation and amenity, including benches, footpaths, signage, litter bins and other facilities.
- Equipped children's play areas: This may include play areas within larger parks or stand alone sites. This can also include ball game areas, green gyms and natural play.
- Informal green space: This is often an area of mown grass. These are often smaller spaces near to where people live, including within housing estates.
- Natural areas: Open space with a focus on nature conservation, includes woodland, wildflower meadows and nature reserves.

Please spare ten minutes of your time to fill out a quick survey.

74. Ladymoor Pool – no seating area for the bus stop

## 2b. Women's group (32 present)

Do you use parks and other open spaces in the city?

- New area by Morrisons (Bilston Urban Village).
- Prouds Lane Park / near the park. Hickman Park and East Park.
- Come to a Punjabi Group at BCC and take them to Hickman Park to get out every Monday and Thursday, weather permitting.
- Hickman Park has a lot of play areas.

- Group to use outdoor equipment that is on offer to them.

If not, why not? // What improvements would you like to see that would encourage you to use them?

- Features / facilities

75. Picnic area for people to sit. 10/20 people to sit and be together.

76. Some form of shelter suggested, whether that is in parks / bus stops.  
Obviously dependent on space.

77. Benches also suggested again with flower beds.

78. Cemeteries – not enough area to sit.

- Characteristics / design of site

79. East Park – not a pleasant park – dark, scary, and resident not been for a long time. Sister went on a recent visit with her dogs and she said it wasn't very nice. Layout issue.

80. Some form of security for people feeling safe in these spaces.

81. Nice flowers definitely encouraged as it helps brighten up the area and encourage people to be around that area – helps lift moods.

82. Flowerpots on the main roads/corners. 'Area' in Bloom could be a suggestion similar to what Wednesfield have. Suggestion that if there are flower beds, it encourages people to sit.

- Management / maintenance

83. Lots of dogs. Especially when dark they don't want to go. Mentally older people may not want to go out when dogs are out, even when nothing may occur with the dog.

84. Trees need trimming back. Used to sit at ponds but due to area being overgrown has discouraged this. Ladymoor Pool.

85. Lots of fisherman go to the pond. May or may not be intimidating to some residents.

86. Weston Drive – fly tipping issue. Are bins there but people are not using them. Fly tipping to the bins. Footpaths aren't very clear either due to this.

■ Other

87. Public Transport – not on time for some residents. That can be a big problem for them to get to where they want to be, especially on time.

## What are the barriers to you using open spaces?

■ Feeling safe and secure

88. Scared of people who drink in the park

90. The worry of being pushed/barged into when out and about due to other being around

91. Security, being afraid to go

92. Scared to visit certain areas, especially on own.

93. Don't use the park on own

94. Believe due to their age, they don't feel safe to visit the park and believe most in the group are similar due to what perception of people who hang around these area

95. Will only go with husband, Fowlers Park, not on her own, not many visit the area

96. Hickman Park in the daytime but not the evening due to the lighting, more risk of who is out at that time, feels less safe

■ Features / facilities

97. Toilets aren't open in Hickman Park

■ Access

98. Mobility of getting to the parks etc.

■ Inclusivity

99. Disabilities can make it a struggle to use these open space – but only visit sometimes

■ Other

100. No desire to visit a park

101. Need the company to go out and visit parks

102. Used to go to West Park but no more

103. Don't go to the park. Goes to the BCC so that is her routine. Walks through streets, and to BCC, so doesn't feel like she personally needs to use it

104. Exercises at home, son bought her some equipment.

105. Got her own garden and go out two days a week, so like their own space

106. Company when visiting – like to go with others – loneliness

107. Live behind a park so has the view of the landscape. Sits in her own garden

221. Fly tipping of open spaces

## Feedback from City of Wolverhampton Council staff forums

### Meeting: 13/09/23 Age and Disability Staff Forum

#### ■ Inclusivity

- 235. Wheelchair access is an issue at many open spaces
- 236. People with anxiety and neurodiversity like to know what is there before they go so advanced information is important
- 237. Engage with SEND community to test play equipment – e.g. have a half day for them to test
- 238. Sensory gardens – some of the feedback around autism etc. is that people would like more sensory space
- 239. Walking speeds in measuring distances – need to take account of disabilities and mobility issues

#### ■ Communication

- 240. People knowing where are the open spaces they can visit – a map and visuals to give people info would help

#### ■ Physical access

- 241. Appreciation of issues of distance for people with disabilities – need to make sure they can reach certain facilities such as cafes and toilets which need to be accessible from bus routes, car parks etc. (NB relevant to new facilities at East Park)

#### ■ Community engagement / events

242. Make it easier for people and community groups to organise events in parks – can be difficult for outside voluntary organisations to find contacts and negotiate the process, with multiple people to speak to. Need one point of contact which is publicised. (NB can this be added to/ made clearer or easier to find on the council's website?)

- Sense of safety and security

243. Safety – is mobile connectivity an issue? Should we be seeking to ensure mobile connectivity in our parks?

244. Lighting

- Health and wellbeing

245. Mental health – friendship benches/ buddy benches where people can sit and chat to a stranger

## Meeting:14/09/23 Rainbow Staff Forum

- Sense of safety and security

246. Main issue is personal safety and fear of attack in open spaces

247. Fear of dog attacks from dogs off leads

- Other

248. Opportunities for growing food

## Meeting:27/10/23 Race, Religion and Belief Staff Forum

- Exemplar site

249. Prouds Lane, Bilston – wanted to say how amazing it is. Locals concerned at start as they didn't know what was happening but are now very happy. Goalposts retained, path, fitness equipment, benches ... well used. People don't like change, but this is a good improvement.

■ Sense of safety / security

250. Safety – wouldn't feel 100% safe on own in park – seen needles (raised by female)

251. More lighting for safety and security

■ Community engagement / events

252. There is a lot of green space. Need engagement with communities to hold community-based events to bring people together.

253. Support smaller communities to use green space in their neighbourhoods e.g. playing field, r/o Inkerman Street, Heath Town

254. Heath Town Park – community events – couple last year, very good and popular (someone else said they are mostly organised by Churches for Positive Change)

## **Appendix D**

### Site scores and performance against quality and value standards (audited sites)

The following tables provide a schedule of all sites included within the Open Space Strategy and Action Plan. This includes quality and value scores and performance against the quality and value standards (for sites that have been audited).

The area of relative Open Space Need and Play Need (see Chapter 7) that each site is within is also indicated. For the purposes of this exercise, relative Open Space Need and Play Need has been grouped into five categories. Five being higher need, 1 being lower need.

Sites that do not meet the quality and value standards and that are also in areas of high Open Space Need and / or Play Need could be considered as priority sites for enhancement.
