

Response to Request for Information

Reference FOI 000589
Date 15 November 2016

Smart Technology

Request:

- Can you provide a list of planned and currently deployed smart technologies for Wolverhampton? [The 'Wolverhampton Workbox' will provide residents with improved access to skills, training and employment through the development of an interactive website. £219,000 has been allocated to support its development.](#)

- How much have city of Wolverhampton budgeted for deploying smart technology in the city? [See above.](#)

- Who has ownership of any data collected by smart technology in the city? Is this data shared with third parties? [City of Wolverhampton Council owns the data, which is shared internally to improve the services.](#)
