Residential Care

Request:

Please can you provide any policies or protocols in operation in your area which focus on reducing the criminalisation of children in residential care. If so, please specify if there has been any involvement of local partners, for example local authorities, police forces and youth offending teams.

In response to your request, we can confirm that we currently have no 'in house' residential facilities and as such have no such policies in place.

We are developing our relationships with local private providers but to date have no protocols in place
