

Response to Request for Information

Reference FOI 000994
Date 22 March 2017

Public Health Services

Request:

Under the Freedom of Information Act we respectfully request information relating to two key Public Health services.

Please find attached 2 separate excel files which contain questions relating to your organisations Substance Misuse and Sexual Health Services.

All identifiable information has been removed from the file properties to allow forwarding to your appropriate officer(s) (Lead Commissioner, Consultant or Director of Public Health) responsible for each of the services.

The questions have been formatted primarily with drop down boxes from which answers can be selected to reduce time spent by the officer(s).

[In response to your request, please find our response attached.](#)
