Schools MIS Contract

Request:

I'd like to know when your existing Management Information System (MIS) contract with Capita SIMS is due to end, and therefore when you expect to begin a re-procurement process for your schools?

Can you please let me know the end month AND the new procurement process kick off date if decided?

[In response to your request, please find our response below:](#)

[We purchase the licences on behalf of the schools as it is the most cost effective way to purchase them, the cost is then passed back to the school, however it is up to the individual schools to decide which system to use, the Council has no control over this.](#)
