Parking Charges and Fines

Request:

I would like to know in each of the last three years - 2015/16, 2016/17, 2017/18 - how much the council made from parking charges, both on-street and car parks. In answer to your above question, please note that the figures provided reflect gross income and therefore do not include any offsetting costs associated with the provision of the Parking service and any use in accordance with statutory guidance.

It is important to note that the figures for 2016-2017 reflect the six-month closure of the Civic Centre car park for refurbishment and the temporary closure of the nearby Civic Halls entertainment venue as part of its £38.0 million refurbishment. All of this supports the ongoing regeneration of the city centre with some one billion of investment on site as planned.

Financial year	On / off street parking £000
2015-2016	2,420
2016-2017	2,396
2017-2018	2,692

I would also like to know how much the council made in parking fines (or parking charge notices) for the same period.

Financial year	On / off street parking charge notices £000
2015-2016	499
2016-2017	487
2017-2018	484

[NOT PROTECTIVELY MARKED]

The top 10 streets where fines were handed out.

2015-2016	2016-2017	2017-2018
