Traffic Data

Request:

I am modelling the ring-road as part of my dissertation which is due on May 17th. I would like traffic flows at peak time, i.e. 16:30 - 17:30 on a working day. The morning rush-hour would also be useful, the boundaries of my model fall just outside the ring-road so the arterial routes are there as exits/entries only.

In response to your request we can confirm all of Wolverhampton City Council's traffic survey data is held under licence by Mott McDonald consultants. Due to the licence agreement we are unable to provide the data requested to third parties. The data should be requested directly from Mott McDonald (0121 234 1500).
