Statement Used on Recent Recruitment Advertising

Request:

Can you please provide me with the evidence on which statement used in recent recruitment advertising is based ?

Please refer to our web site which contains a plethora of valuable information on our transformation journey. The rapid progress we are making in transforming the council is the reason for the 'probably' headline in the recruitment advert. We hope you like it and support our efforts to put the City of Wolverhampton on the map. Thank you for your interest in the City of Wolverhampton Council.
